

# HDFS Binary Writer Prerequisites

## Version of Hadoop Required

---

The Aspire HDFS Binary Writer was created and tested using version 5.10.1 of Cloudera

## User Account Requirements

---

The Binary File Writer can run against unsecured HDFS file systems, or those secured using Kerberos. If using Kerberos, you'll need to know the user principal and has a keytab for that user

## Windows or Linux

---

The HDFS Binary Writer runs on either Windows or Linux.
