- [Limitations](#)
- [Future Development Plan](#)

Features

Some of the features of the Lotus Notes connector include:

- Use views on application databases
- Documents and attachment retrieval

Content Retrieved

The Lotus Notes connector retrieves several types of documents, listed below are the inclusions of these documents.

Include

- Application Databases
- Mail Databases
- Knowledge Base Documents
- Mail Documents
- Attachments

Limitations

Due to API limitations, the Lotus Notes connector has the following limitations:

- The include and exclude filtering is limited to the document URL, which contains IDs
 - There was no user friendly URL provided by the API

Future Development Plan

Anything we should add? Please [let us know](#).
