

HDFS Archive (HAR) Compactor Prerequisites

Version of Hadoop Required

The Aspire HDFS Binary Writer was created and tested using version 5.10.1 of Cloudera

User Account Requirements

The HDFS Archive (HAR) Compactor can run against unsecured HDFS file systems, or those secured using Kerberos. If using Kerberos, you'll need to know the user principal and has a keytab for that user

Windows or Linux

The HDFS Binary Writer runs on either Windows or Linux.
